

Fasasi Tope Elijah

I'm a dogged front-end software engineer and technical writer. I am passionate about providing real time solutions using modern web technologies like Reactjs, Nextjs, Typescript, JavaScript(ES6+), etc., and crafting easy-to-understand technical documentations (contents). I'm currently learning and building with Golang. I am always eager to contribute to Open Source projects.

Check me out on [GitHub](#) and [LinkedIn](#).
